Customers Have Spoken and We Listened

Zing Gets Your Products to Your Customers the Way They Want It

Consumer expectations are on the rise. A recent study by Forrester shows as consumers get more exposed to better online shopping services they expect the same from their local in-store retailers. At Zing, we monitor consumer buying trends and offer omni-channel capabilities out-the-box.

Stand out from the competition by offering these powerful omni-channel features:

Allow customers to buy online and pick up in-store.

Make real-time in-store inventory information available online.

Have online orders ship from any store.

Know customers preferences and purchase history at checkout.

Ready to move but don't have the time? We'll Move Your Shop For You

We'll migrate you from any other POS so you'll be ready to scale on Zing. Instantly be on a reliable platform that gives you ecommerce, Quickbooks accounting, and everything you'd expect from modern business software.

Accelerate Your Business

Scale and automate your business with our growing list of integrations.

With Zing you not only get a modern point-of-sale and back office software, you'll have a business technology foundation that integrates with time saving and automation systems.

[image: robot with multiple arms doing work like accounting, moving inventory, and ecom shopping cart]

Accounting

Keep all your accounting simple. Zing integrates directly with QuickBooks™ Online so your sales data stays up-to-date everywhere.

With QuickBooks™ Online integration you'll be able to:

- access your accounting data anytime anywhere
- have automatic backup of your accounting data
- automatically track your expenses, sales and income
- create and send invoices

Ecommerce

Selling online is a powerful way to expand your business, but you don't want it to create new inventory headaches. Zing connects with Bigcommerce so you can be selling online quick and easy.

With Bigcommerce integration you can:

- have an attractive full featured website to market and sell your products on the web
- automatically sync your current inventory to only sell what's available
- apply sales and promotions to both your online audience and walk-in customers

“This software is crazy simple to use. It is dead on with the integration with Bigcommerce.”

Rich DeChick,
Owner of Vape Kult, New York

Email Marketing

Your customers are constantly connected to their devices and email is a prime way to reach them. Zing automatically keeps your marketing lists up-to-date.

Your best customers choose to hear from you and they don't want to miss any special offers. Zing's integration with email newsletter systems allows you to keep your brand on the top of their mind.

With MailChimp and Constant Constant integration you can:

- allow in-store customers to sign up to your mailing list
- create beautifully designed emails with drag-and-drop templates
- see insights of your online customers to know their reading and buying habits
- setup schedule marketing campaigns to run on a regular basis

We really like how Zing's integration with MailChimp has been smooth and easy. We turn it on, and it syncs all of our customers over to our list in MailChimp, allowing us to keep in easy contact with our most valued customers.

Bonnie,
Owner of Alleyway Boutique, New York

Gift Cards and Customer Loyalty

Gift card and loyalty programs are a great way to steadily grow a base of happy, return customers. Zing integrates these directly into the POS to allow you to reward your loyal customers and offer gift cards.

With Mercury or SparkBase integrations have the ability to:

- sell any size gift cards in-store or online
- offer returning customer punch cards
- offer spending reward programs
- reward customers who buy online or in-store
- offer discounts for in-store check-ins
